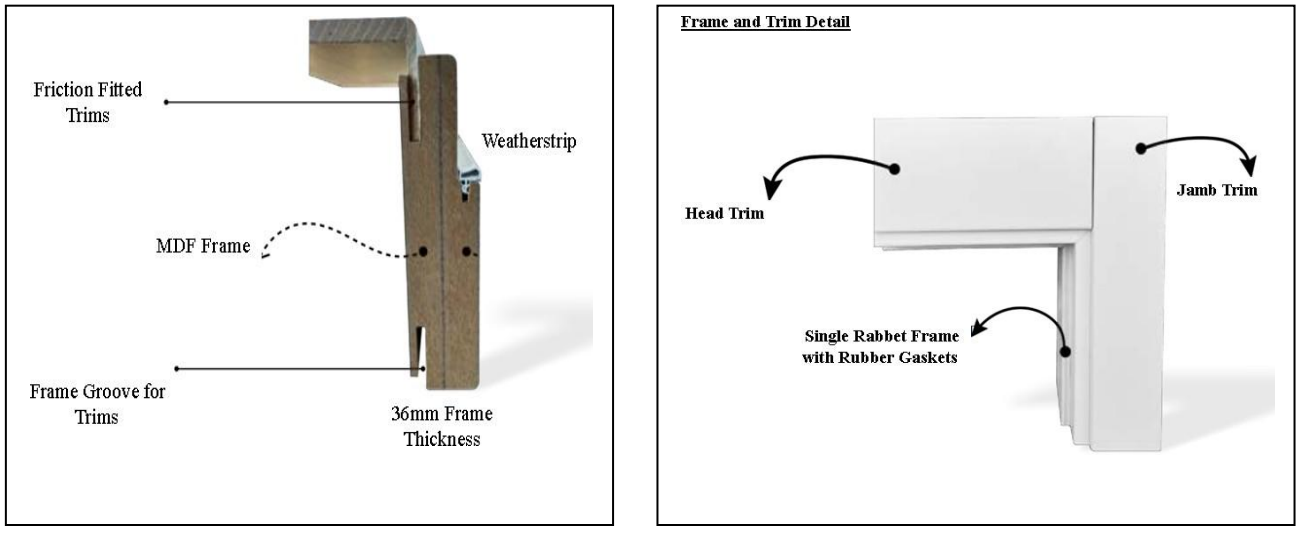
02 WOOD VENEER SERIES	Five Wood Species · Classic, Horizontal and Vertical
03 LAMINATE SERIES	Ten Modern Finishes · Eight models
04 FRAMELESS SERIES	Dedicated Concealed Frame · Hidden Adjustable Hinges

Standard Adjustable Frame and Trims

The Lacquered, Wood Veneer and Laminate Series use this frame and trim package.



Frame and trim detail

36 mm MDF frame cross-section with trim groove and weatherstrip

The standard frame is a single-rabbet MDF frame, 36 mm thick, with rubber gaskets. Friction-fit trims slide into grooves from both sides of the wall, allowing adjustment to suit wall thickness and irregularities. The weatherstrip along the rabbet helps seal the gap between the door and frame.

SERIES 01

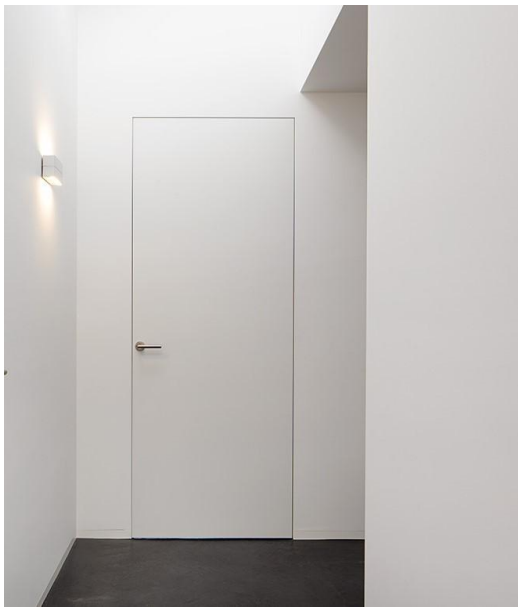
SERIES 04

Frameless Series

A dedicated concealed frame and hidden adjustable hinges create a flush finish with the surrounding wall.

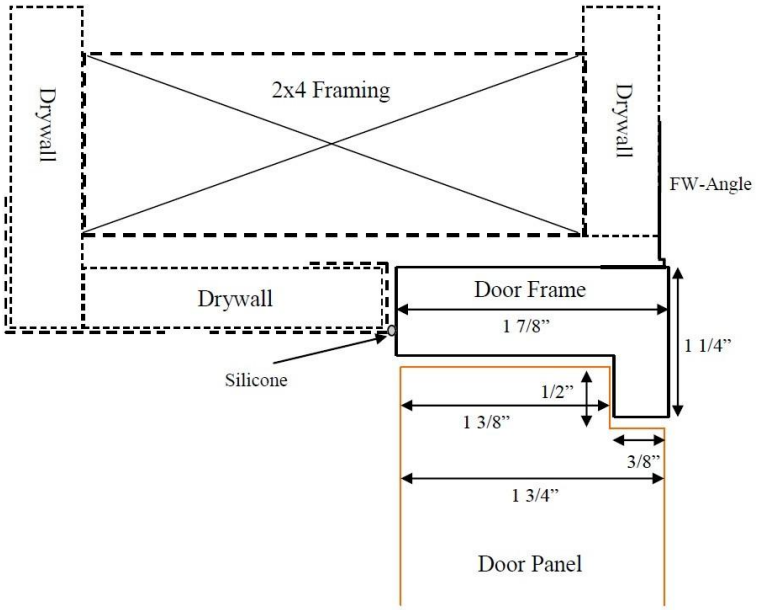


Unlike the other three collections, this series uses its own concealed jamb profile. The frame is integrated into the wall and covered by drywall or wall panelling. No conventional casing or trim surrounds the opening.

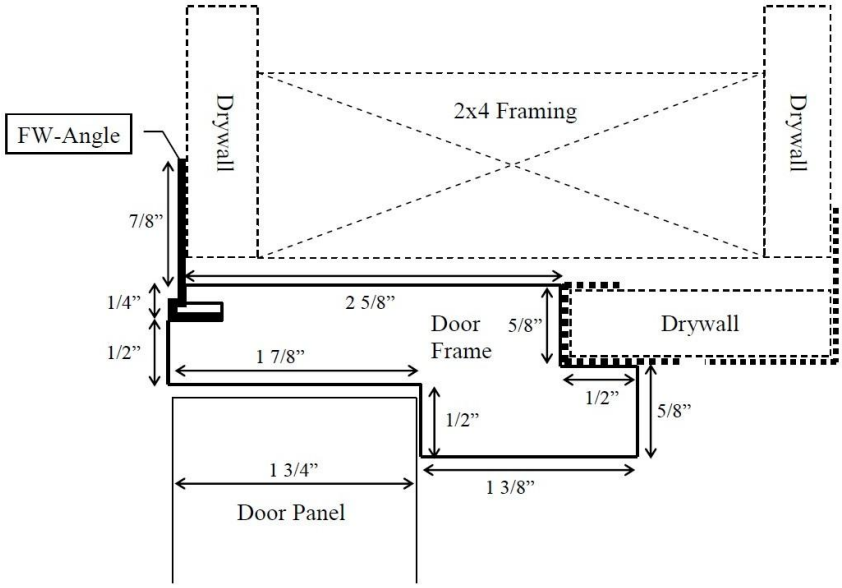
SERIES 04 · FRAME DETAILS

The concealed frame system

Frame configurations shown on the website.



Inswing concealed frame detail



Outswing concealed frame detail

System information: Two jamb profile versions, depending on whether the door is flush with the wall on the inside or outside of the room. Hollow-core or solid-core panels. Panel heights of 80–96 inches (203–244 cm). Panel thicknesses of 1 3/8 inches (35 mm) or 1 3/4 inches (44 mm); the inswing frame accepts 1 3/4-inch panels. Designed for wall thicknesses over 4 inches, including 2x4, 2x6 and 2x8 stud layouts. Concealed adjustable hinges from Italy.
